

OneGlobe Achieves Oracle Partner Network Specialization for Oracle Big Data Cloud Service

Oracle Recognizes OneGlobe for Expertise in Oracle Big Data Cloud Service

May 11, 2017 – OneGlobe, a global business technology consulting and solutions company and Gold level member of Oracle Partner Network (OPN), today announced it has achieved OPN Specialized status for Oracle Big Data Cloud Service.

To achieve OPN Specialized status, partners must meet a stringent set of product-specific competency and business requirements that are based on the needs and priorities of the customer community. By achieving a Specialized distinction, OneGlobe has been recognized by Oracle for its expertise specifically around Oracle Big Data Cloud Service through competency development, business results and proven success through customer validation. Specialization can provide customers with confidence that a partner is qualified in the defined product or industry area and able to successfully develop and architect specific solutions.

'Big Data' is no longer just a buzzword, it's now a corporate standard across several organizations. Today's organizations have started to focus on driving insights for immediate action. OneGlobe's Big Data teams focus on helping customers to leverage the potential of Big Data and enable them to become a 'Data-Driven Decision Making' enterprise. With this specialization, OneGlobe is well positioned to help organizations of all sizes discover new ways to strategize, plan, optimize business operations, and capture new market opportunities.

"Organizations today are constantly battling to remain profitable, competitive and in fact survive digital disruptions. Big Data Analytics enables organizations to identify insights that help them to stay ahead of the competition. Achieving Oracle Big Data Cloud Service specialization further strengthens our expertise in the Analytics space and we look forward to continue delivering significant business results for our existing and new customers," said Lawrence Crooks, Managing Director – North America Business, OneGlobe.

"We congratulate OneGlobe on achieving Oracle Big Data Cloud Service specialization as we continue to advise our customers on the value-add that specialized partners bring to delivering Oracle solutions. Transformative technologies like Big Data Analytics are key to Oracle's strategy in enabling organizations to drive innovation and business transformation by increasing business agility, lowering costs, and reducing IT complexity," said Kimberly Lasseter, Senior Director of the Global Partner Network, Oracle.

About OneGlobe

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) is Oracle's partner program that provides partners with a differentiated advantage to develop, sell and implement Oracle solutions. OPN offers resources to train and support specialized knowledge of Oracle's products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to be recognized and rewarded for their investment in Oracle Cloud. Partners engaging with Oracle will be able to differentiate their Oracle Cloud expertise and success with customers through the OPN Cloud program – an innovative program that complements existing OPN program levels with tiers of recognition and progressive benefits for partners working with Oracle Cloud.
