

Leading Us infrastructure company successfully migrates to Oracle R12 ERP

1

Client Profile

- ❑ Leading national infrastructure construction company serving the energy, water/sewer/civil, communications, and government sectors.
- ❑ Involved in some of the largest and most complex infrastructure construction projects across the country for the past 80 years.
- ❑ Our Client & it's subsidiaries has offices across the country, with a workforce of nearly 10,000 skilled professionals
- ❑ Our client specializes in Design, Build & Install of infrastructure for communication and power companies, utilities, and governments throughout the United States

Our Solution

- ❑ Designed a global, scalable Oracle solution for the client and its subsidiaries
- ❑ Designed global data elements like COA, Suppliers, Customers, Items etc.
- ❑ Created roles & responsibilities as per segregation of duties compliant to SOX requirements.
- ❑ Advice on IFRS requirements in Oracle Design
- ❑ Designed and Developed all the RICE elements

Business Challenge

- ❑ Understanding the client's 13 subsidiaries that have their own processes & Legacy systems
- ❑ Ensure the R12 implementation has a common global design and supports the business process across the different service lines
- ❑ Ensure that the processes and configurations of the current two Oracle R11i environments are harmonized and deployed in the new R12 instance
- ❑ Integrate Oracle with Siebel using SOA to develop 30+ interfaces under a very tight time line.
- ❑ Work with multiple IT suppliers in partnership to deliver the project.

Business Results

- ❑ A single Oracle R12 instance with a common design and processes.
- ❑ An Oracle – Siebel integrated systems with 30+ interfaces.
- ❑ Successful conversion of all historical (master and transactional data) from multiple systems to the single common Oracle R12 instance
